## WORK EXPERIENCE

### Working Fresher

As a fresher freelance frontend developer, I specialize in creating responsive and visually appealing websites using HTML, CSS, and JavaScript. I am eager to collaborate with clients to bring their design ideas to life while ensuring optimal performance and user experience. My focus is on delivering high-quality, cross-browser compatible solutions as I build my portfolio.

### Freelancing freelancing

As a freelance frontend developer, I create responsive and engaging websites using HTML, CSS, and JavaScript. I work closely with clients to bring their design visions to life while ensuring optimal performance and user experience. My expertise includes delivering high-quality, cross-browser compatible solutions on time.

## ORGANIZATIONS

### Working Clients work

As a frontend developer, I implement responsive and interactive user interfaces using HTML, CSS, and JavaScript. I collaborate with designers and backend developers to ensure a seamless user experience. My focus is on optimizing performance and maintaining cross-browser compatibility.

## CERTIFICATES

### WBA (Web And Mobile Development)

As a developer specializing in both web and mobile development, you have a diverse skill set that allows you to create seamless and interactive user experiences across multiple platforms. Here's a concise description of your role and expertise:As a versatile developer, I specialize in both web and mobile development, creating responsive and dynamic applications. With expertise in HTML, CSS, JavaScript, and frameworks like React for web, along with React Native for mobile, I build cohesive user experiences. My focus is on optimizing performance, ensuring cross-platform compatibility, and delivering high-quality, user-centric solutions.This description highlights your ability to work on both web and mobile projects, emphasizing your skills and the quality of your work.
